😙 Basically I have purchased this for my office use but occasionally I will play games also.. I am not an pro gamers to review this but still works fine for me warranty and all I can assure this is the best bcz is I am working in lenovo onlyREAD MORE

Good monitor I'm mostly using it for coding & casual gaming and it's more than good for those purpose. Antiglare is on point, good colour reproduction watching movies on it is a different level experience. However I'm deducting 1st ar for following things1) Stand is not height adjustable.2) No builtin speaker at this price point one aux port is given   to connect external speaker.3) No user manual is shipped with the monitor. I have to figure out myself to download it's driver from Lenovo...READ MORE

This screen is awesome. I am a software engineer and this screen is perfect for the kind of work that I do. The colors are crisp. Anti-glare is on point, reflecting any ambient light from surroundings.I just wanted to highlight that If you use this screen, always keep the refresh rate at 75hz otherwise you will see some pixel artifact in the display.READ MORE

Value for money! Great for its price. IPS is far superior than non IPS ones. Sleek design, software is good. Bezels are very thin. Just a little flaw is non adjustable height and the default height seems bit higher. I am thinking to get a vesa mount for height adjustments.READ MORE

This is a really good monitor u can get at this price, Great build quality, I personally recommend to purchase this.Can be used for home as well as office works.Will be even better if you can mount it on desk using a vesa desk mount for flexible setup.READ MORE

Outstanding monitor...READ MORE

Value for money monitor with IPS panel.READ MORE

dont think too much just click on buy now.......READ MORE

Good product,. But delivery very lateREAD MORE

As per the specification, the refresh rate is 75. But actually it has only 60 Hz refresh rate.READ MORE
